

## **Holiday Recycling**

***Press Release, December 9, 2009:*** Give the environment and the economy the “gift” of recycling this holiday season. Recycling is an easy way to “do your part” for the environment. If you live in Greenville you just need to call Public Works and ask for a recycling sticker to put on a covered container and then either put it at the curb on your regular pick up day or put it beside your trash container in your back yard for pick up.

Recycling means “big business” to NC and provides a lot of jobs so by recycling you are supporting the local economy. This holiday provides a lot of recyclable materials: paperboard (gift boxes), cardboard (shipped item boxes), wrapping paper, bottles (both plastic and glass), and aluminum cans.
