needle or sharp.*

TRASH IT!

- Used sharps and needles need to be placed in a hard plastic container (detergent bottle - #2) or metal container with a lid and then taped shut and **placed into the trash**.
- Sharps containers are for sale in many pharmacies. These too are **thrown into the trash** after they are full.
- If you do not wish to throw your used needles and sharps container into the garbage and live in Greenville, then you can participate in the City Of Greenville's pick up program. **Call 252-329-4522.**
